A LITTLE ABOUT US

Known by chance, friends by choice! We started by working together, then our working paths split but the friendship remained and grew more and more until we decided to start this project together!

We share the same principles and the idea that teamwork divides tasks and multiplies success!

We are ready and determined to face every challenge!

Alessandra Milan

My adventure in this area started by chance, but after more than 10 years of experience, I can say that this is what I want to do!

I have worked in important contexts and during my career I have had the opportunity to relate to very different people and customers, as well as I have been able to follow events of all types, from pharmaceuticals to fashion, through incentives and conventions!

In this way I learned to manage every situation that presented itself in front of me quickly and professionally.

I like the contact with people, I am precise and a little fussy, but I always put all of myself into what I do!

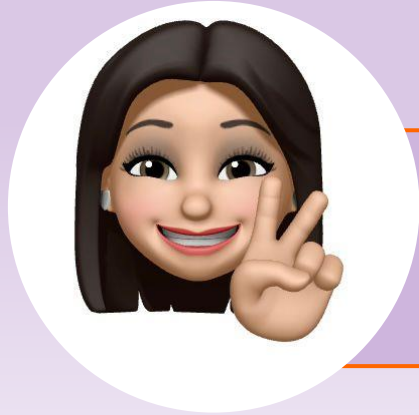

Valentina Persenico

My work experience has focused over the years, in the context of General services, initially as a receptionist, then as a managerial assistant and finally as a legal team assistant.

This kind of experience has led me to improve my organizational and problem solving skills that can be presented on a daily basis.

I like that everything is always in order so that I can have most things under control and know how to predict critical issues and needs of the people I work with.
